

**PAT.M574100**

- Application: DAF CF65 LF55 17TONS / VOLVO
- PARTS no.: 33209 / 636820
- Bearing puller with excellent and thicker structure for removing the bearing of heavy duty vehicles and trucks.
- This tool can easily, quickly remove the bearing.
- Easy to use: Put the jaws into the inner hole of the bearing, and use hand to turn the knob of expander in the middle, so the jaw can expand and hook onto the bearing. Finally, turn the central spindle to pull out the bearing.

Application range:  
65-120 mm

Application range:  
100-165 mm
