

Extended Reach Pin Punches

ET9084

NEW!

Forged from high quality Chrome Steel

Accurately hardened 38-45 HRC and tempered so that the pin will withstand continuous use.

Working ends are accurately ground

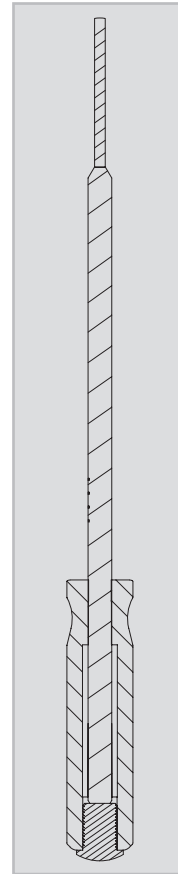

Punch Body extends through the handle and connects with the end cap to provide a solid striking surface

Metal striking cap allows hammering without any damage to the handle

Composite material handle made of LDPE & EVA for safety, comfort & reduced fatigue.

Designed to remove drift pins, roll pins, clevis pins, spring pins, dowel pins etc.

Overall length (L): 16" (400 mm) for easy access in hard to reach areas

Blade is connected to the end cap

Metal Striking Cap
